

**Suggested Middle Georgia College Course / High School Course Equivalencies**  
 High School Course                      Middle Georgia Course                      Comments  
 (1 unit each)                                      *Unless noted, all courses below carry 3 semester hours.*

Junior English	English Composition: ENGL1101 <b>AND</b> ENGL 1102	
Senior English	One semester of American Literature: Either ENGL 2131 or 2132 <b>AND</b> One semester of British Literature: Either ENGL 2121 or 2122 With written permission of the sending school system, World Literature, ENGL 2111 or ENGL 2112 could be substituted for the above.	A student missing <i>only</i> Senior English would be required to take the English Composition Sequence ENGL 1101 and ENGL 1102.
Algebra II	2 of the following: College Algebra: MATH 1111 Plane Trigonometry: MATH 1112 Precalculus Mathematics: MATH 1113 (4 hours) Calculus I - II: MATH 1127-1128 (4 hours each) Calculus III: MATH 2207 Linear Algebra: MATH 2208 Differential Equations: MATH 2209 (4 hours)	GAMES Students are required to take a math placement examination and are placed using the results. Given the proficiencies in mathematics of many of the GAMES students, it is possible that a student missing Algebra II would test into placement higher than College Algebra. Such a student would still be required to complete enough coursework above College Algebra in order to meet high school graduation requirements.
Geometry	With written permission of the sending high school, the same sequence as listed above for Algebra II.	Only in rare cases would a student be admitted who lacked high school geometry. MGC, as with most colleges, offers no direct equivalent to high school geometry. However, most MGC math courses contain elements and concepts from geometry.
Chemistry	Survey of Chemistry I: CHEM 1151 (4 hrs) <b>AND EITHER</b> Survey of Chemistry II: CHEM 1152 (4 hr) <b>OR</b> General Chemistry I: CHEM 1012 (4hrs).	If ½ unit of high school Chemistry has been completed the student may start with General Chemistry I: CHEM 1012 (4 hrs).
Physics	General Physics I: PHYS 1111 (4 hours) <b>AND</b> General Physics II: PHYS 1112 (4 hours).	Engineering majors should use the following sequence instead: Calculus-Based Physics I: PHYS 2211 (4 hours) <b>AND</b> Calculus-Based Physics II: PHYS 2212 (4 hours).
American History	US History to 1865: HIST 2111 <b>AND</b> US History Since 1865: HIST 2112.	
World History	World Civilization II: HIST 1012 <b>AND</b> World Civilization III: HIST 1013.	
Govern./Civics(1/2 unit)	Political Science: POLS 1101.	
Economics (1/2 unit)	Principles of Macroeconomics: ECON 2105 <b>OR</b> Principles of Microeconomics: ECON 2106.	
Foreign Language (2 units)	French: FREN 1001, 1002, 2001, and 2002 <b>OR</b> Spanish: SPAN 1001, 1002, 2001 and 2002 <b>OR</b> German: GRMN 1001, 1002, 2001, and 2002 <b>OR</b> Japanese: JAPN 1001,1002, 2001, and 2002	Students entering with ½ or more units of high school foreign language credit will be tested for placement but will not placed higher than the starting level necessary to complete the units required for high school graduation. Students who have started a language sequence not offered by MGC will be allowed, with the written permission of the sending high school, to pursue completion of that sequence through the University System of Georgia Independent Study Program.
Personal Fitness (1/2 unit)	Exercise and Weight Control: PHED 1113 (1hr) <b>AND</b> Fitness Walking: PHED 1118 (1 hr).	
Health (1/2 unit)	Health: HLTH 1101 (2 hours) <b>AND</b> First Aid and CPR: PHED 1178 (1 hour)
